## Dlacey

Where magic is dark and gritty, characters troubled and twisted, and victory comes at a heavy price. Deep under the City of Glass in the frozen southern land, an age-old machine called the Heart of the City radiates a power which locals call icefire. Most citizens are immune to it, but a few, always born with physical disabilities, can bend it to their will. For fifty years, the ruling Eagle Knights, who fly on the back of giant birds, have killed these Imperfects, fearing the return of the old royal family, who used icefire to

cut out people's hearts,  
turning them into ghostly  
servitors. The old king's  
grandson Tandor only sees  
the good things icefire  
brought: power and  
technology now forgotten  
while the people of the  
south live in dire poverty.  
He's had enough of seeing  
his fellow kinsfolk  
slaughtered by ignorant  
Knights, of Imperfect babies  
being abandoned on the ice  
floes to be eaten by wild  
animals. His grandfather's  
diary tells him how to  
increase the beat of the  
Heart the first step to  
making the land glorious  
once more. Arrogant as he  
is, he sets the machine in

The queen Jevaithi is Imperfect, living like a prisoner amidst leering Knights, surviving only because the common people would rebel if their beloved queen were harmed. Both are young and desperate and should be grateful that Tandor wants to rescue them from their hopeless situations. Or so he thinks. The youngsters, however, have no inclination to become heartless ghosts, but
